WORK EXPERIENCE

GRIP

UI Tech Lead

June 2024 - March 2025

Functions:

- ❖ Oversee and manage a team of 2 developers.
- ❖ Synchronise with Production, Art, Audio and Gameplay to clarify requirements and smooth transition of shared features.
- ❖ Write and review submissions to ensure a high standard of code quality.

Achievements:

- ❖ Delivered all milestones in a timely manner, with no major issues and a very robust, crash-free code.
- ❖ Expanded on the in-house map plugin to add features such as icon overlap management, limit collision handling, off-screen icon pointers, etc.
- ❖ Console debugging, including researching the means to compile directly from the Rider IDE into the PS5, shortening debugging time.

UI Developer

June 2024 - March 2025

Functions:

- ❖ Implement widgets to UX/UI's specifications.
- ❖ Create necessary materials and animations for the UI.
- ❖ Write clean, scalable and performant code as a solid base for additional features.

Achievements:

- ❖ Delivered and passed the Vertical Slice milestone.
- ❖ Implemented the base plugin for a map with features such as panning, zoom and dynamic icon placement.

Webhelp

Quality Assurance

December 2021 - September 2023

One on one feedback meetings with agents, weekly management metrics reviews, develop and maintain an SQL/Looker dashboard and miscellaneous tasks.

Technical Solution Representative

March 2021 - December 2021

Investigate, reproduce and troubleshoot issues, resolve architectural flaws, expand and improve documentation and training of new hires.

EY (Ernst & Young)

SOC Analyst

July 2019 - March 2020

Peripheral security monitoring, incident management, preventive measures, reporting and customer service.

ESL - Turtle Entertainment GmbH

Support Admin

2016 - 2020

Support administrator for major E-Sports competitions and standalone admin for monthly local competitions. Setting up the game stations, handle players and attendees, gather and resolve feedback.
